Vehicle: BMW E36

Subject: Climate control

When replacing your BMW E36 climate control panel with an Injectronics exchange unit, please be aware that you must remove the interior temperature fan from the original unit and fit it to the Injectronics exchange unit.

Fitting Instructions:

1. Remove the 2 x interior temperature fan retainer screws from faulty unit.
2. Disconnect the two pin connector plug of the interior temperature fan from the faulty climate control unit.
3. Re-fit the original interior temperature fan to the Injectronics exchange unit in reverse fashion to removing it
